Communiqué

22 October 2019

Recognition of Outgoing Board Members / Welcome to New Board Members

Over the past year the Board has undergone a complete change of its membership. We farewell Margaret Ford, John Harvey and Lenette Mullen after almost nine years of service to the Board. We commend Margaret, John and Lenette for their dedication, commitment and contributions to the regulation of pharmacy premises.

The Board welcomes Debra Letica, Dean Schulze and Linda Keane as its newest members.

Pharmacy Premises Desktop Audits

The Board has just conducted desktop audits throughout all country pharmacies in Western Australia.

Metropolitan pharmacy desktop audits will be commencing in the next month. The Board intends to audit all metropolitan pharmacies within the next 2-3 years using this desktop process.

As part of the audit, the Board has decided to check barcode scanning rates in all pharmacies in Western Australia and raise awareness of the public health safety benefits of using barcode scanners.

Barcode scanning is strongly endorsed by the Pharmacy Board of Australia in its September 2018 newsletter article "The importance of barcode scanning".

< <https://www.pharmacyboard.gov.au/News/Newsletters/September-2018.aspx> >

Barcode scanning of pharmacy medicines is critical to ensuring the greatest level of safety in the dispensing process and has become a professional, community and regulatory expectation. Evidence is available to demonstrate a reduction in selection errors by up to 50 per cent through the use of barcode scanners. Barcode scanning not only protects the public by reducing errors but also protects the pharmacist from the anguish that making a mistake can bring. Professional indemnity insurance companies strongly advocate barcode scanning.

The collective of Pharmacy Registration Boards in Australia are of the opinion that a minimum of an 80% barcode scanning rate should be achievable for all pharmacies.

Changes to Register

All changes shown below are from 4 May 2019 to 21 October 2019.
