Communiqué

5 August 2020

COVID-19

It has been many months since the Pharmacy Registration Board of WA (Board) sent out a Communiqué to the profession.

With the volumes of information being received daily in all Community Pharmacies in WA during the last few months, from various government agencies and pharmacy bodies, the Board felt it was better to allow proprietors to concentrate on the crisis and their individual businesses.

During the last few months we have fielded a number of individual queries regarding changes to counters, access doorways etc to provide safe workplaces during the pandemic. The Board dealt with these in a speedy manner, as accepted the changes as long as they did not contravene the regulations.

The Board has been extremely pleased with the response of WA pharmacy owners to the pandemic which has shown all stakeholders, including consumers and government, the supply of essential medicines for all Australians is in safe hands.

We are particularly pleased with the number of influenza vaccines administered in the community setting despite the difficult health conditions.

Thank you everyone for taking up the challenge to keep pharmacy services available during this pandemic.

S8 SAFES

In 2016, the Medicines and Poisons Regulations Branch of the WA Department of Health revised the regulations for the storage of S8 poisons in pharmacy in WA.

96. *Storage of medicine that is Schedule 8 poison: pharmacy*

- (1) *A medicine that is a Schedule 8 poison stored in a pharmacy or the pharmacy department of a hospital must be stored —*
 - (a) *in a secure cabinet access to which is supervised at all times by a pharmacist; or*
 - (b) *in a large safe with a detection device; or*
 - (c) *in accordance with an approved alternative storage arrangement.*
- (2) *A pharmacist who is supervising access to a secure cabinet in which a medicine that is a Schedule 8 poison is stored must —*
 - (a) *if access to the secure cabinet is by use of a key — keep immediate and personal possession of the key; or*

- (b) *if access to the secure cabinet is by way of an access code — take all reasonable measures to ensure that the access code is not given to any other person.*

During the photographic audits the Board has been conducting in the last 12 months there have been instances of non-compliant S8 drug safes in community pharmacies. The Board has been working with these pharmacies to manage the upgrade to compliant drug safes, in a timely manner, for the benefit of the public.

As a pharmacy owner I do understand it is difficult to keep up with all the legislation changes relating to our industry. I only realised myself the requirements for safes had changed when I put in some plans, for significant alterations, to the Board a few years ago and was told our existing below-ground drug floor safes were no longer compliant.

The Board suggests pharmacy owners review the storage of S8 medicines in their premises to ensure compliance with Regulation 96 of the Medicines and Poisons Regulations 2016.

Changes to Register

All changes shown below are from 22 October 2019 to 1 August 2020

Pharmacy Name Changes:	
Former	New
Friendlies Cannington	Pharmacy 777 Cannington
