Communiqué

5 October 2026

Welcome to the Board's latest Communiqué.

Correct Storage of Scheduled Medicines

The Board reminds pharmacy proprietors and pharmacists with overall responsibility of their obligation to ensure the safe and compliant storage of scheduled medicines within registered pharmacy premises.

Compliance with the requirements of the *Pharmacy Act 2010 (WA)*, the *Pharmacy Regulations 2010 (WA)* and the Board's *Guidelines for Safe Storage of Medicines in Pharmacies* does not remove the requirement to comply with the provisions of the *Medicines and Poisons Act 2014 (WA)* and the *Medicines and Poisons Regulations 2016 (WA)*.

Proprietors and pharmacists with overall responsibility must ensure that their pharmacy premises, storage arrangements and practices comply with all legislative and regulatory requirements applicable to the operation of a pharmacy in Western Australia.

The Board encourages pharmacy proprietors and pharmacists with overall responsibility to review the [Guidelines for Safe Storage of Medicines in Pharmacies](#), available on the Board's website, and undertake regular assessments of their premises to ensure continued compliance.

The Board also reminds proprietors and pharmacists with overall responsibility that the physical layout of their pharmacy must reflect the plans currently held by the Board on file. Any alterations to registered premises, including changes to dispensary areas, scheduled medicine storage locations, consultation rooms or other areas, may require prior Board approval before implementation.

Maintaining premises in accordance with currently accepted plans is an important component of ongoing compliance and assists the Board in ensuring pharmacies continue to meet the standards required for registration.

Submission of Applications

The Board continues to experience an increase in both the number and complexity of applications submitted for consideration. This has resulted in longer assessment timeframes and an increased workload associated with the review of supporting documentation.

To assist with the efficient assessment and processing of applications, the Board has resolved to amend its application submission requirements.

Effective from the 12th of January 2027, COMPLETED applications along with supporting documentation, must be received by the Board no later than 25 business days prior to the relevant Board meeting.

This replaces the current requirement published on the Board's website, which states:

"For the Board to consider an application at a particular meeting, the COMPLETED application must be received no later than 20 business days prior to the meeting".

Applicants are reminded that an application will only be regarded as complete when all required forms, supporting documentation, plans, agreements and other information requested by the Applications team have been received and assessed as satisfactory.

The Board also wishes to emphasise the importance of allowing sufficient time for the applications team to review application documentation prior to the relevant submission deadline. Early submission enables staff to identify any deficiencies in the application and provide applicants with an opportunity to address outstanding matters before the cut-off date.

Applicants who submit applications on, or shortly before, the application cut-off date should be aware that if the Applications team subsequently determines that additional information, amendments, revised plans, executed agreements or further documentation are required, there may be insufficient time for those matters to be resolved before the cut-off date. In these circumstances, the application will be deferred to a subsequent Board meeting once all required information has been received and assessed.

Example Premises and Building Plans

The Board is currently undertaking a project to develop and publish example pharmacy premises and building plans for applicants to reference when preparing pharmacy applications.

The examples will provide guidance on the level of detail, format and standard expected by the Board when plans are submitted in support of applications for the registration, relocation, alteration or extension of pharmacy premises.

The Board has identified that many plans submitted with applications do not contain sufficient detail to allow an assessment to be undertaken efficiently. This often results in delays caused by requests for revised plans or additional information.

Once available, the example plans will represent the minimum standard expected by the Board for future submissions.

As of the 1st of July 2027, the Board will no longer accept hand-drawn plans as part of an application. Plans submitted to the Board should be professionally prepared, clearly legible, drawn to scale and be able to be printed to A3 size at the correct scale, and include all information necessary for the Board to assess the application.

The Board anticipates that these example plans will be available on its website by early 2027. A further Communiqué will be issued when the examples have been published and are available for use by applicants.

CHANGES TO THE REGISTER

The Board provides the following recent changes to its Register and advises the complete [Public Register](#) is available on its website.

Gavin McKay

Presiding Member

REGISTER OF REGISTERED PREMISES

Changes from 29 May 2026 to 2 October 2026

Pharmacy Name Changes:	
Former	New
Wundowie Pharmacy Centre	Wundowie Pharmacy
Mundaring Community Pharmacy	Evergreen Pharmacy Mundaring
Advantage Pharmacy Bedford	Pharmacy 777 Bedford
Beckenham Pharmacy	TerryWhite Chemmart Beckenham
