Communiqué

24 November 2026

Welcome to the Board's latest Communique.

Display of Proprietor Signage

The Board wishes to remind pharmacy proprietors of the requirement to maintain signage at all public entrances displaying the name or names of the proprietor(s) of the pharmacy, whether natural or corporate, as applicable. The signage must be clearly visible to members of the public.

As part of the approval process for new pharmacy registrations, changes of ownership, relocations and significant alterations, applicants are required to provide photographs demonstrating compliance with this requirement. Where temporary signage is in place at the time a pharmacy commences trading, proprietors are requested to provide updated photographs once permanent signage has been installed.

The Board has observed that these photographs are not always submitted following completion of works. Proprietors are reminded that it is their responsibility to provide evidence that permanent proprietor signage has been installed and complies with Board requirements.

Change of Ownership Applications - Premises and Building Plans

The Board has identified that a significant number of plans submitted in support of Change of Ownership applications do not meet the standard required to efficiently assess applications.

Common issues include hand-drawn plans, poor legibility, plans that are not drawn to scale, plans that cannot be accurately reproduced at the stated scale, and plans that omit information necessary for assessment.

Historically, the Board has accepted plans of varying quality when submitted with Change of Ownership applications, as no alterations to the registered premises were proposed. However, maintaining accurate and current records of registered pharmacy premises remains an important regulatory requirement and supports the Board's assessment of ongoing compliance.

Effective from 1 July 2027, plans submitted with Change of Ownership applications will be required to meet the same standard expected for all other application types.

From this date, the Board will no longer accept hand-drawn plans or plans that do not meet the Board's minimum requirements. Plans submitted in support of Change of Ownership applications must be:

- professionally prepared;
- clearly legible;
- drawn to scale;
- capable of being printed on A3 paper at the stated scale; and
- sufficiently detailed to enable the Board to assess the application.

Where plans do not meet the required standard, applicants may be requested to provide revised plans before the application can be considered by the Board.

The Board reminds proprietors that it is the responsibility of the current proprietor of the pharmacy to ensure that accurate and compliant premises and building plans are provided as part of the Change of Ownership application process.

The Board encourages pharmacy proprietors contemplating the sale of a pharmacy after 1 July 2027 to review their current plans well in advance and arrange for updated plans to be professionally prepared where necessary.

CHANGES TO THE REGISTER

The Board provides the following recent changes to its Register and advises the complete Public Register is available on its website.

Gavin McKay
Presiding Member

REGISTER OF REGISTERED PREMISES
